### Singapore Method Annotations

Story: "The Masque of the Red Death"

Directions: For each method, use a different colored pencil. Be sure to write in cursive and follow each method's annotation. Be sure the colors are easy to read if a sentence/question is required. Not only should the symbol be included, the material should be shaded in the correct color as well. Proofread and be neat. Tally on the left as you complete each annotation.
